

A VISION FOR THE GROVE COMMUNITY CHRISTIAN CHURCH

December 29, 2019

- A place where God is worshipped passionately – Mind, soul and strength.
- A place of prayer and communion with God. A place that serves the nations through intercession.
- A place of sweet fellowship, where people look forward to being and long for when they are absent.
- A place where God's word is creatively communicated, moving people from information to life change.
- A place that highly values children and students and places priority on reaching, training and releasing.
- A place of relevance, where the Gospel is encouraged to pass from generation to generation.
- A place of accountability – Developing disciples who are Christ centered.
- A place where people are transforming from selfish to selfless servants of others.
- A place of beauty that solicits a response of favor from the community which spawns evangelism.
- A place committed to resourcing world evangelism by developing indigenous leadership and planting churches.
- A place that enables all members and attenders to evaluate where they are on the pathway and provides tangible steps to move ahead.
